

*Secure Spots, Drive Strong*

# Business Thesis

*A mixed-use parking station network for **Class 3-8 truck drivers** because current drivers lack scheduled parking and high-quality amenities that maintain life quality and ensure efficient delivery schedule.*

# Problem & Opportunity

Acute Shortage

1 in 10 drivers have  
parking access

Massive  
Economic Loss

Wasted labor time  
and fuel costs

Top Concern

Frustration for both  
truck drivers and  
fleet operators

Operational Gap

Lack of quality  
amenities for  
sustainable work  
lifestyle

Tech Gap

No real time  
information system  
at scale

# Value Proposition

Class 3-8  
Drivers

- Guaranteed access to parking spots through reservation
- **Essential amenities** on site
- **Real-time parking availability** based on lot sensors or satellite data

Fleet  
Operators

- Reduce **fuel costs** and **wasted time** searching for parking
- **Optimize routes** with real-time parking availability
- **Pre-contract parking capacity** before construction to guarantee fleet needs
- Improve hours of **service compliance**

# Park Well Experience

Search for Parking, Reserve Spot → Park at Park Well station → Arrive on-time and safely

# Park Well Experience

## Amenities

- Parking
- Fuel / EV Charging
- Healthy F&B Options
- Lodging
- Shower
- Security

# Why Park Well?

Network Effect

Data Advantage

Capital Efficiency

Pricing Power

# Product-Market Fit

**6-7%**

## **Volume Growth**

Annual increase in units transported across e-commerce supply chains

**2.5x**

## **Distribution Growth**

Expansion in distribution which is needed to support JIT delivery

**\$1.2Tn**

## **Market Size**

Total addressable market for last mile logistics

| <b>Severe parking shortage</b>                         | <b>56 minutes wasted daily</b>                     | <b>\$120Bn annual impact</b>                            | <b>Regulatory demands</b>                                               | <b>Cargo theft</b>                                            |
|--------------------------------------------------------|----------------------------------------------------|---------------------------------------------------------|-------------------------------------------------------------------------|---------------------------------------------------------------|
| Severe supply-demand<br>One parking spot per 10 trucks | Drivers waste 15 extra miles searching for parking | \$38Bn in fuel and \$82Bn in lost productivity per year | New hours of service rest rules have increased nighttime parking demand | \$700 Mn/yr in theft and driver turnover costs<br>>\$10 Bn/yr |

# Network Effect of Hubs

*Each new hub added to our network will not just add revenue, it will increase the value of entire ecosystem*

**4 Scalable**  
Compounding network effects that allows more partnership due to brand trust

**1 More Hubs**  
Increases network coverage and accessibility

**3 Brand Trust**  
High quality infra-establishing trust and loyalty

**2 Cost Saving**  
Modular replicable which converts low cost land into high value infrastructure

# Model for Rapid Scaling

## 1. Identify

Pinpoint strategic vacant lots in our identified route network

## 2. Acquire

Secure land lease at low cost

## 3. Convert

Deploy standardized modular hub components with minimal infrastructure investment

# Addressable Market

| Segment                   | Est. Value (\$/yr) | Notes                                      |
|---------------------------|--------------------|--------------------------------------------|
| Diesel/ Charging Spend    | \$120 Bn           | ~35B gal/yr truck diesel consumption in US |
| Truck Parking & Fees      | \$7-10Bn           | 2.4M drivers × \$10/day avg × 300 days     |
| Food and Amenities        | \$20-30Bn          | Retail + Services at rest stop             |

Tech-Enabled Certainty

Driver Experience & Wellness

# Competitive Advantages

## Gated Security

- **High-Value Cargo Approved**
- Monitored Perimeters
- Safe Zone

## Tech-Enabled Certainty

- **TMS Integration**
- Zero Search Time
- Guaranteed Uptime

## EV-Ready Infrastructure

- **Grid-First Design**
- Class 8 Ready
- No Legacy Cost

## Revenue Diversity

- **Operating Revenue**
- Subscription Fee
- Asset-light Model

## Wellness Ecosystem

- **Healthy Food Options**
- Hotel-Grade Hygiene
- On-Site Wellness

## Strategic Zoning Access

- **Prime Locations**
- Community Benefit
- Last-Mile Proximity

# Business Model

This Model Turns a Critical Driver Pain Point Into a Scalable Business.

# Go to market plan

A Route-Based Strategy That Secures Demand Before We Build.

## Beachhead Market Entry

- Penetrate high-shortage corridors (Pennsylvania and Virginia)
- Concentrate on fleets running fixed routes – faster adoption

## Fleet Contracts

- Pre-sell capacity block for guaranteed utilization
- Integrate into TMS so dispatchers route drivers automatically

## Scale

- Replicate the model new corridors using standardized site design
- Use fleet integrations + partnerships to drive capital efficient expansion

# Financials – JV & Sources and Uses

| 5-Year Cumulated Sources |           |                    | 5-Year Cumulated Uses |           |                    |
|--------------------------|-----------|--------------------|-----------------------|-----------|--------------------|
| GP Equity (Park Well)    | \$        | 6,991,715 (5%)     | Operating Expenses    | \$        | 89,517,286 (67%)   |
| LP Equity                | \$        | 125,911,451 (95%)  | Development Cost      | \$        | 43,385,880 (33%)   |
| <b>Total</b>             | <b>\$</b> | <b>132,903,166</b> | <b>Total</b>          | <b>\$</b> | <b>132,903,166</b> |

## JV Structure

### Purpose

- Equity absorption → LP provides most of the equity
- Existing assets → reduce acquisition cost & mitigate development risk
- Better understanding of the local market → decades of operating experience

### Benefit

- Lower risk → LP will take most of the risk
- Higher return → Promote structure will incentivize GP to perform
- Higher credit worthiness → LP co-investment makes it easier to finance
